PROFILE

Software Engineering and Information Systems graduate with over 2 years of experience developing intelligent solutions. I combine skills in Machine Learning, Deep Learning, and Computer Vision with a strong foundation in software engineering. I aim to deepen my knowledge of Artificial Intelligence and Data Science through a Master's degree in France.

PROFESSIONAL EXPERIENCE

- Full-Stack & AI/ML Developer - Resmo, Multi business web application, Korpor**  01/2026 – 04/2026
Djerba, Tunisia
 - Contributed to the development of **Resmo**, a hybrid platform that centralizes multiple business functions within a single digital environment.
 - Developed **6** modules: HR, productivity, finance, marketing, website builder, and main dashboard modules.
 - Implemented secure full-stack features, including authentication, CRUD operations, and role-based access control supporting **5** user roles.
 - Contributed to the design of interactive dashboards and data- and AI-driven features for analysis and decision support.**Stack:** React.js, Next.js, Node.js, TypeScript, MongoDB, Express.js.
- Full-Stack & AI/ML Developer - Real Estate Management Web Application with Unified Dashboard, Korpor**  07/2025 – 12/2025
Djerba, Tunisia
 - Developed a full-stack web application for managing properties, sales, and real estate projects.
 - Designed cost-tracking modules for construction and production, along with interactive dashboards for monitoring **3** KPIs.
 - Integrated a machine learning model for real estate price estimation and decision support that achieved **84%** accuracy.
 - Implemented secure authentication, CRUD operations, and role-based access control.**Stack:** React.js, Node.js, Typescript, MongoDB, Scikit-learn, Express.js.
- Artificial Intelligence Developer - Deep Learning-Based Mobile Application for Early Skin Disease Detection, Arappdev**  02/2025 – 06/2025
Zaghouan, Tunisia
 - Designed a complete computer vision pipeline for lesion detection, segmentation, and classification into **9** categories using deep neural networks and trained on **50000+** high definition images.
 - Integrated this AI pipeline into a mobile application connecting patients and dermatologists to facilitate both an initial assessment and specialist feedback.
 - Integrated dermatological validation to improve the reliability of the solution and strengthen user trust.
 - Achieved **90%** accuracy on clinical and benchmark datasets.
 - Deployed on iOS/Android serving patients and dermatologists.**Stack:** React native, Node.js, TypeScript, MongoDB, Express.js, Supabase, Python, Keras/TensorFlow, OpenCV, FastAPI.

PROJECTS

Two-Stage Movie Recommendation System	09/2024 – 01/2025
Built a production-style recommendation engine using a two-stage retrieval-ranking architecture. Trained a Two-Tower neural model on MovieLens to generate user/item embeddings, retrieved top-N candidates via FAISS vector search, and re-ranked results using a LightGBM model evaluated with NDCG@K. Stack: Python, PyTorch, FAISS, LightGBM, FastAPI, Pandas, NumPy.	
ResearchLens AI Research Paper Intelligence Platform ↗	07/2024 – 08/2024
Developed an AI-powered research assistant using RAG to extract, index, and semantically search academic papers, enabling context-aware question answering with source-level citations. Stack: Python, FastAPI, PyMuPDF, Embeddings, Vector Database, LLMs.	

LEADERSHIP AND VOLUNTEER EXPERIENCE

AIESEC ↗ , <i>External Exchanges Manager</i>	10/2023 – 05/2024 Monastir, Tunisia
IEEE , <i>President</i>	01/2022 – 06/2022 Monastir, Tunisia

EDUCATION

Research Master’s in Automated Reasoning Systems & Artificial Intelligence , <i>Faculty of Sciences of Monastir</i> ↗	09/2025 – Present Monastir, Tunisia
Relevant coursework: Artificial Intelligence, Algorithms, Networks, Graphs & Optimization	
Bachelor’s Degree in Software Development , <i>Faculty of Sciences of Monastir</i>	09/2022 – 06/2024 Monastir, Tunisia
Relevant coursework: Web, Mobile, and Desktop Development, Software Design, Databases, Big Data, IoT	

SKILLS

Programming Languages Python, JavaScript, TypeScript, SQL, Java, C	Artificial Intelligence Machine Learning, Deep Learning, Computer Vision, TensorFlow, PyTorch, Scikit-learn, OpenCV
Data & Visualization NumPy, Pandas, Matplotlib, Seaborn	Cloud & DevOps Docker, Git, GitHub, CI/CD, Linux
Databases MySQL, MongoDB, Firebase, Supabase	Tools Jupyter Notebook, Postman, VS Code, Figma, LaTeX
Web Development React.js, Next.js, Node.js, Express.js	

LANGUAGES

French Professional Working Proficiency (C1)	English Full Professional Proficiency (C2)	Arabic Native
German (A2)
